Limited Submission Funding Opportunity

Centers for Disease Control and Prevention

Childhood Obesity Research Demonstration 2.0

http://www.grants.gov/web/grants/view-opportunity.html?oppId=280155

FOA#: RFA-DP-16-004

The purpose of this FOA is to test a model of quality clinical care addressing childhood obesity for U.S. low-income children, especially those enrolled in or eligible for health care coverage under the Children’s Health Insurance Program (CHIP) or Medicaid. Specifically, the purpose is to implement and test the ability of a model of clinical childhood obesity management along with an Electronic Health Record referral-based, family centered pediatric weight management program, to reduce body mass index (BMI) in children with obesity, or overweight with risks (including, e.g., medical and behavioral risks, and family history). Health outcomes of interest include measurable changes in body mass index (BMI), nutrition and physical activity behaviors, health care satisfaction and service delivery, and quality of life. This will be accomplished through pediatric care including:

- Implementing and evaluating a model addressing childhood obesity that includes clinical screening and counseling and a EHR-referral-based, structured, intensive family centered pediatric weight management program located in the clinic or community;
- Collaboration with state CHIP and/or Medicaid offices to advise a state-wide or regional level project and to be part of a stakeholder group that can help generate suitable recommendations for sustainability and program components to be further replicated or scaled.

LIMIT ON NUMBER OF PROPOSALS PER ORGANIZATION

Only one application per institution (normally identified by having a unique DUNS number) is allowed.
**KEY DATES**

If you are interested in this funding opportunity, please send a one-page summary of the proposed research and your biosketch to Eric Boberg (e-boberg@northwestern.edu) by December 14, 2015.

The sponsor application due date is January 29, 2016.

**COLLABORATION OPPORTUNITIES**

The Office of Research Development offers assistance in identifying and facilitating collaborations, putting together interdisciplinary teams, programmatic and administrative development of large, cross-school proposals, and leveraging institutional resources for outreach and education. Contact Fruma Yehiely (yehiely@northwestern.edu), Associate Vice President for Research, Director of ORD, for more information.
